

Soft Care Gel

H5

No rinse hand sanitizer

Description

Soft Care Gel is an alcohol rub, developed for hand sanitization. The product is suitable for application in the healthcare and food processing area.

Key properties

Soft Care Gel is a skin sanitizer based on isopropyl alcohol. This is a very efficient sanitizer, highly effective against resident and transient skin micro organisms, such as bacteria, fungi and viruses. The product has been formulated with thickener, generating higher viscosity and resulting in longer product-skin contact time and consequently better performance.

In addition it contains emollients, providing skin care.

Soft Care Gel is especially suitable for hygienic and surgical hand sanitization. The product is perfume free, thus eliminating risk of tainting food allowing application in the food processing area.

Features and benefits

- Contains combination of isopropyl & n - propyl alcohol
- Suitable for hygienic and surgical hand sanitization
- Perfume free (suitable for use in food processing area)
- Contains emollients; prevents skin irritation and dryness

Directions for use

Thoroughly clean and dry hands with a suitable mild hand cleanser, before applying Soft Care Gel

- Hygienic hand sanitization** : Apply 3 ml (2 to 3 shots from the dispenser) of Soft Care Gel to clean dry hands and massage thoroughly into the skin, paying particular attention to fingertips, the nails and webs of the finger. After 30 seconds, Soft Care Gel alcohol evaporates leaving the skin dry and feeling soft and smooth.
- Surgical hand sanitization** : Apply 5 ml (4 shots from the dispenser) of Soft Care Gel to clean, dry hands and forearms and massage thoroughly into the skin as above. Once dry, repeat the procedure one more time.

Soft Care Gel

H5

No rinse hand sanitizer
