

Soft Care Plus

H41

Disinfectant cleanser

Description

It is scarcely necessary to extol the virtues of good hygiene. There are many bacteria that may be found on the skin of a particularly healthy person. These are spread either through direct contact or via equipment and surfaces. Disinfecting the hands is a requirement within many professions - health care and the catering trade are prime examples. Soft Care Plus is an antimicrobial skin cleanser which helps reduce the risk of food contamination or cross-infection.

Features and benefits

- Softcare Plus H41 has lactic acid as an active ingredient, which helps in disinfection of hands. (Lactic acid is a common example of humectants. i.e. hygroscopic compounds)
- Helps reduces the risk of food contamination or cross-infection at your establishment

Directions for use

Soft Care Plus gentle hand cleanser is ready-to-use. It can be easily dispensed through any refill / top-fill dispensers.

Soft Care Plus disinfectant cleanser is so formulated that, about 3 - 5 ml. is sufficient for a good handwash.

This makes it extremely cost-effective.

Soft Care Plus

H41
